Dear Ms. Lott:

On behalf of Harris Corporation, please find the attached Radiation Hazard study, to be associated with File No. SES-LIC-20071029-01471 as a replacement for the previously filed Radiation Hazard study.

Please note that the proposed antenna will be located in a gated and fenced facility with secured access to the proposed antenna. The earth station will be marked with industry standard radiation hazard warnings. The transmitter will be turned off during periods of maintenance to avoid harmful exposure to operating personnel.

Should you have any questions about this matter, please contact me.

Respectfully,

David O'Connor
Counsel for Harris Corporation
