Re: *DIRECTV Enterprises, LLC*  
*File Nos. SES-LIC-20080306-00238 and -00239*

Dear Ms. Dortch:

Yesterday, the International Bureau released an order granting four pending earth station applications filed by DIRECTV Enterprises, LLC ("DIRECTV"). *See DIRECTV Enterprises, LLC*, DA 08-1923 (rel. Aug. 20, 2008). In that order, the Bureau found that it would be appropriate to waive any requirement for coordination with fixed service licensees operating in the 28.35-28.6 GHz and 29.25-29.5 GHz bands for a proposed earth station that would be essentially collocated with an existing earth station already authorized to operate in those bands. *Id.*, ¶ 12.

This is to confirm that the two earth station applications identified above fall into this same category. Specifically, SES-LIC-20080306-00238 (call sign E080056) will be essentially collocated with existing earth station E060299, while SES-LIC-20080306-00239 (call sign E080057) will be essentially collocated with existing earth station E060298. Accordingly, for the reasons stated in yesterday's order, these pending applications are eligible for the waiver granted to DIRECTV's similarly situated earth stations.
