Re: SES-LIC-20080306-00242
Clarification Related to Emissions Designator

Dear Ms. Dortch:

I am writing on behalf of Inmarsat Hawaii Inc. to clarify two issues in the above-referenced application with respect to an emission designator (i.e., 20M0X2D) listed on the Form 312, Schedule B on pages 14-15 and 21-22 in column E47.

First, the emissions designator in the Schedule B includes the letter "O" ("20MOX2D"), which is a typographical error. It should be the integer "0" (zero). Second, the 20M0X2D carrier designation represents the Inmarsat navigation carrier. The signal is BPSK modulated by a spread spectrum ranging code and navigation message. The letter X represents the type of modulation of the carrier, which is a type not described in Section 2.201(c) of the Commission's rules.

Please do not hesitate to contact the undersigned at 202-248-5155 with any questions about this letter.

Respectfully submitted,

/s/

Diane Cornell
Director, Inmarsat Hawaii Inc.
