Thank You for the information requested, but the emission is still not correct missing a digit recheck and submit again correct emission designator?

Thanks
Eleanor

Dear Ms. Lott,

Thank you very much for your email regarding the Intelsat application call sign E080108.
Per our phone conversation, this is to confirm the correct format for the designation of emission in this application as follows:

3M8G7W
7M6G7W
56K0G7W

The above emission designators replace the ones previously submitted in the Intelsat application.
We greatly appreciate the opportunity you've provided to take care of this issue.

Best regards,

Angela Maimo

Hello Ms Crandall,

The above reference application for MOD filed on May 12th your application is Emission Designators are incorrect can you please verify these emissions (3M862G7W, 7M624G7W, 56KG7W), and submit the correct ones for this application MOD or your application will be return as defective as filed. Please fell free to contact me with any questions on the matter 202-418-0728.

Thank you,

Eleanor M. Lott
