Mr. Scott Kotler
Chief, Systems Analysis Branch
Satellite Division
International Bureau
Federal Communications Commission
445 Twelfth Street, SW
Washington, DC 20554

Dear Mr. Kotler,

We've recently applied for a C Band License for our new transportable uplink truck. FCC File # SES-LIC-20081212-01598. FRN#0007234974. New call sign #E080242.

We'd like to acknowledge that a frequency coordination report will be created for each location that this truck transmits from in accordance with FCC Rules - Section 25.277 Temporary fixed earth station operations, sub Paragraph F2. This is a procedure that we have been very familiar with as we operate another C Band truck since 2000 and have performed these frequency coordination reports for each location, so we don't create interference with other terrestrial stations.

Please attach this exhibit to our application that was e-filed on Dec 12th, 2008.

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Moon', with a long horizontal line extending to the right.

Jeff Moon
