Re: Harris Corporation
Earth Station E100057 (Granted June 16, 2010)
FCC File No. SES-LIC-20100429-00496
Notification of Commencement of Operations

Dear Ms. Dortch:

On behalf of Harris Corporation, and pursuant to Section 25.133(b) of the Commission's rules, 47 C.F.R. §25.133(b), this letter certifies that construction of the above-referenced earth station was completed as authorized and operations were commenced in September 2010 and will remain operational during the license period unless the license is submitted for cancellation. The station is currently operating in accordance with the parameters set forth in the station's license. Each antenna facility has been tested and is within 2 dB of the pattern specified in Section 25.209.

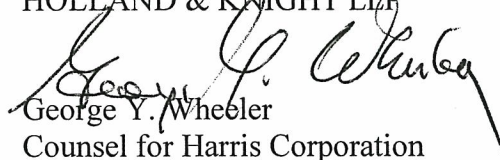

Waiver of the FCC's construction notification requirements is requested, if required, to cover submission of the foregoing certification after the close of the construction deadline listed in the earth station license, E100057.

An extra copy of this letter is enclosed. Please date-stamp the extra copy and return it to the courier.

There is no fee associated with the filing of this notification. In the event there are any questions concerning this matter, please communicate with the undersigned.

Respectfully submitted,

HOLLAND & KNIGHT LLP

George Y. Wheeler
Counsel for Harris Corporation
