Re: Application of Panasonic Avionics Corporation; File Nos. SES-LIC-20100805-00992, SES-AMD-20100914-01163, SES-AMD-20101115-01432, SES-AMD-20110325-00358 and SES-AFS-20110405-00402 (Call Sign E100089); Certification of SES Americom, Inc.

Dear Ms. Dortch:

Panasonic Avionics Corporation (“Panasonic”), pursuant to Section 1.65 of the Commission’s Rules, 47 C.F.R. § 1.65, hereby submits the enclosed Certification of SES Americom, Inc. (“SES”) that it is aware of Panasonic’s amendment in the above-captioned application proceeding to increase the number of eXConnect Ku-Band AMSS terminals from 15 to 50.¹

In the application proceeding, Panasonic provided coordination affidavits, including an Intelsat affidavit addressing communication with the Galaxy 17 satellite at 91° W.L. countersigned by SES.² The enclosed certification states that the minor amendment to increase the number of AMSS terminals does not affect the prior coordination and SES does not object to grant of the application as amended.

¹ See Application of Panasonic Avionics Corporation for Authority to Operate Up to 15 Technically Identical Aeronautical Mobile-Satellite Service (“AMSS”) Aircraft Earth Stations (“AESs”) in the 14.0-14.4 GHz and 11.7-12.2 GHz Frequency Bands, File Nos. SES-LIC-20100805-00992, SES-AMD-20100914-01163, SES-AMD-20101115-01432, SES-AMD-20110325-00358 and SES-AFS-20110405-00402 (Call Sign E100089) (“Panasonic AMSS Application”). File No. SES-AMD-20110325-00358 amends Panasonic’s application to increase the number of AMSS terminals from 15 to 50.
