

## EXHIBIT C

### REQUEST FOR EXPEDITED PROCESSING

Intelsat License LLC (f/n/a Intelsat North America LLC) (“Intelsat”) respectfully requests expedited processing of its application for authorization to operate a VSAT network using its Mountainside, Maryland earth station, call sign E040414, as a hub. The proposed operations comply with all the requirements of Section 25.115(a)(2) of the FCC’s rules. The proposed operations will:

- 1) be in the 11.7-12.2 GHz and 14-14.5 GHz bands;
- 2) only use U.S.-licensed or Permitted List geostationary satellites;
- 3) be on a non-common carrier basis;
- 4) conform to all technical, procedural and operational requirements of the FCC’s rules and require no waivers;
- 5) use antennas that comply with the antenna gain standard specified in Section 25.209(a) and (b) of the FCC’s rules;
- 6) conform with all routine power and power density rules contained in Section 25.212 of the FCC’s rules;
- 7) not require frequency coordination;
- 8) not have a significant environmental impact, as defined by 47 C.F.R. § 1.1307;<sup>1</sup>
- 9) not require FAA notification under 47 C.F.R. Part 17 and 47 C.F.R. § 25.113(c).

---

<sup>1</sup> A completed Radiation Hazard Study (refer to OET Bulletin 65) is attached as Exhibit B to this application for the remote terminals, and is as provided with the initial license application for the hub antenna E040414.
