Hi Towanda,  
The Max Input Power( under item E38) should be 346.74 W.  
This corresponds to the value of 25.40 in dBW (currently appearing in the form) for Antenna on SiteID 1, AntennaID 1.  
Thank you for bringing this to our attention.  
The legal issues noted in the report are being addressed by Sue Crandall.  
Best regards,  
Angela Maimo
