Re: Michigan Satellite Systems Application for Authority to Operate a Ku-band
SNG Earth Station IBFS File No. SES-LIC-20110721-00849 (Call Sign E010014).

Dear Mr. Moon:

On July 21, 2011, Michigan Satellite Systems (MSS) filed the above-captioned application seeking authority to operate a Ku-band earth station. Section 25.112 of the Commission's rules, 47 C.F.R. § 25.112, requires the Commission to return as unacceptable for filing any earth station application that is not substantially complete, contains internal inconsistencies, or does not substantially comply with the Commission's rules. The MSS application has the following deficiencies, which renders the application unacceptable and subject to dismissal:

1. MSS did not submit the required Schedule B (*see* Section 25.130(a) of the Commission's rules, 47 C.F.R. § 25.130(a));
2. MSS did not submit the required radiation hazard report (*see* Section 1.1308 and 1.1311 of the Commission's rules, 47 C.F.R. §§ 1.1308 and 1.1311, and Main Form 312, item 28).

Accordingly, pursuant to Section 25.112(a)(1) of the Commission's rules, 47 C.F.R. § 25.112(a)(1), and Section 0.261 of the Commission's rules on delegations of authority, 47 C.F.R. § 0.261, we dismiss the application as defective without prejudice to re-filing.¹

Sincerely,

A handwritten signature in blue ink that reads "Paul E. Blais".

Paul E. Blais
Chief, Systems Analysis Branch
Satellite Division
International Bureau

¹ If MSS refiles an application identical to the one dismissed, with the exception of supplying the corrected information, it need not pay an application fee. *See* 47 C.F.R. § 1.1111(d).
