Re: Call Sign E110182  
File No.: SES-LIC-20111219-01468

Dear Mr. Duwall:

On December 19, 2011, West Virginia University filed the above-captioned license application for a Fixed Satellite Transmit/Receive earth station. For the reasons stated below, we dismiss the application as defective.

Section 25.112 of the Commission's rules, 47 C.F.R. § 25.112, requires the Commission to return as unacceptable for filing any earth station application that is not substantially complete, contains internal inconsistencies, or does not substantially comply with the Commission's rules. The West Virginia University application has the following deficiency, which renders the application unacceptable and subject to dismissal:

Section 25.130(a) of the Commission's rules, 47 C.F.R. §25.130(a) requires applications for a new or modified transmitting earth station facility to be submitted on FCC Form 312, and associated Schedule B, accompanied by any required exhibits. West Virginia University did not submit a Schedule B.

In light of the above, pursuant to Section 25.112(a)(1) of the Commission's rules, 47 C. F. R. § 25.112 (a)(1) and Section 0.261 of the Commission's rules on delegations of authority, 47 C.F.R. §0.261, we dismiss the referenced application without prejudice to re-filing.

Sincerely,

A handwritten signature in blue ink that reads "Paul E. Blais".

Paul E. Blais
