

RESPONSE TO QUESTION E.15

The .98m Ground Control antenna does comply with the antenna gain patterns specified in Section 25.209(a) of the Commission's rules, but does not comply with Section 25.209(b) of the Commission's rules, 47 C.F.R. § 25.209(a) and (b). The Commission has previously approved operation of the .98m Ground Control antenna.¹ New Cingular Wireless PCS, LLC will operate using the same point of communication, the Galaxy 28 satellite at 89.0° W.L., and within the limits approved in that application and incorporates by reference the filed technical information, including coordination conducted by Intelsat License LLC with adjacent satellite operators.
