Re: Call Sign E120016
IBFS File No. SES-LIC-20120113-00055

Dear Mr. Massey:

On January 13, 2012, SES Americom Inc. (SES) filed the above-captioned application for an earth station license. For the reason stated below, we dismiss the application as defective.

Section 25.112(a) of the Commission's rules, 47 C.F.R. § 25.112(a), requires the Commission to return as unacceptable for filing any earth station application that is not substantially complete, contains internal inconsistencies, or does not substantially comply with the Commission's rules. SES's application has the following deficiency, which renders the application unacceptable and subject to dismissal:

SES did not provide a response to Item E21 of Schedule B, which requires applicants to list the proposed points of communication. *See* 47 C.F.R. § 25.130 (a)(1).

Accordingly, pursuant to Section 25.112(a)(1) of the Commission's rules, 47 C.F.R. §25.112(a)(1), and Section 0.261 of the Commission's rules, 47 C.F.R. §0.261, we dismiss the application without prejudice to re-filing.¹

Sincerely,

A handwritten signature in blue ink that reads "Paul Blais".

Paul Blais
Chief, Systems Analysis Branch
Satellite Division
International Bureau

¹ If SES Americom Inc. refiles an application identical to the one dismissed, with the exception of the corrected information, it need not pay an additional application fee. *See* 47 C.F.R. § 1.1111(d).
