Attachments: 13GHzStudy_CranberryRev.pdf

Ms. Bryant,

There is a 23M0G7W carrier specified for the 13.75-13.77 GHz band in the E120144 license application for SATCOM Digital Networks, LLC (SES-LIC-20120724-00688/ SES-AMD-20120923-00843). The carrier to be used for that band should be 20M0G7W.

Also attached is a revised 13 GHz study, which adds a 20 MHz carrier to the Cranberry site study.

Please contact us if you have any questions.

Thank you,

Denise
