**EDWIN LANNY NASS**  
DIRECTOR SPECTRUM MANAGEMENT

December 5, 2017

Ms. Marlene Dortch, Secretary  
Federal Communications Commission  
445 12<sup>th</sup> Street, SW  
Washington DC 20554

ATTN: International Bureau, Satellite Division

To Whom It May Concern:

Pursuant to FCC *Public Notice* DA 17-1127 (November 21, 2017), an audit of CBS Earth station data was conducted on records retrieved from the FCC's International Bureau Filing System (IBFS) database. The attached table identifies discrepancies in CBS licenses with yellow shading. Since it is believed that these inconsistencies can more efficiently be corrected all at once, we are providing this informal letter rather than scores of individual applications as recommended in the *Public Notice*.

Presuming that the IBFS Address table is intended to represent the applicant/licensee; information in the *Address Name* field (column four in the attached table) should be adjusted to match the *Correct Licensee* field (column two). CBS affirms that no transfers or assignments have occurred. The correct street address is:

1725 DeSales St. NW; Suite 501; Washington, DC 20036-4426

Since CBS uses the same location for the Contact, this data can either be duplicated or referenced (e.g., "Same as Applicant") as desired.

We also found two Earth Station records (E040132 and E7587) that were transferred licensed to Nexstar Broadcasting, Inc. but still show CBS contact information.

Please contact the undersigned if you have any questions or wish an electronic version of the attached table.

Sincerely,

Daniel G. Ryson, Associate Director of Spectrum Management  
CBS Communications Services Inc.
