

ATTACHMENT A - FREQUENCY COORDINATION CERTIFICATION

FREQUENCY COORDINATION STATEMENT

The applicant is familiar with FCC Rules and Regulations Part 25.130 (b), this rule states that a frequency coordination analysis will be submitted with this application. This certification is based on the fact that this application is for a transportable earth station that will operate at various locations throughout the United States and its territories and no specific site is identified during the filing process.

This certification does not request that the coordination process be circumvented only that no coordination exhibit is required for this transportable application. The following certification demonstrates that the applicant will follow the coordination process required for temporary earth station operation.

FREQUENCY COORDINATION CERTIFICATION

The applicant certifies that they are familiar with Parts 101 and 25 of the FCC Rules and Regulations regarding the frequency coordination process. The applicant is aware of and agrees to perform an analysis and notification to potentially affected carriers prior to transmitting at each location. Copies of all coordination notices will be forwarded to the FCC Operations Center Office in Columbia, Maryland.
