Re: Call Sign E140094 File Number SES-LIC-20140915-00722

Dear Mr. Blais:

Upon further review of the above referenced application it was discovered that there are two corrections to be made.

1. Orange lists the applicant as a Common Carrier. This should be changed to Non-Common Carrier.
2. Orange lists in item E60 of the FCC Form 312 – Schedule B that the Maximum EIRP Density toward the horizon for the band 14000 – 14500 MHz is -19.4 dBW/4kHz. This should be changed to -20.2 dBW/4kHz.

Please do not hesitate to contact me should you have any further questions.

Best regards,

A handwritten signature in black ink, appearing to read "Matt Botwin", written in a cursive style.
