**Subject:** More change necessary for O3b (E140107) SES-LIC-20141022-00809

Hi Eleanor,

There are additional condition changes necessary in the attachment I forwarded to you on 6/5/15 @1119 (see e-mails below). Perhaps I failed to word them clearly to begin with so some of these changes are left out not being completed. It was my mistake but these are important changes so would you please complete the changes today? Fortunately, there are not too many of them and I will list them below. I will also bring over a hand-marked copy to clarify.

**CHANGES TO BE COMPLETED:**

Section (H) Special and General Provisions:

- 1) Add **2300**
- 2) Delete **2010** and **3219**
- 3) On **90193**, substitute the word "for" for the phrase "in connection with" so the ending of the last sentence should reads as "... and findings specified for Call Sign S2935"

I understand that you may already mailed out the grant authorization. If this is the case, we may have to send the applicant a revised authorization after all changes being implemented. Please let me know if this is necessary.

Thank you, and I will bring you a mark-up copy of the change in a few minutes.

-Hsing

**Subject:** Conditions not correct on license Re: Please grant: O3b (E140107) SES-LIC-20141022-00809  
**Importance:** High

Hi Hsing,

It looks like the conditions in the O3b Hawaii 2.4 M license (SES-LIC-20141022-00809) as granted do not match up with the final conditions you had sent over to Eleanor. I have attached a copy of the license with a redline showing the inconsistencies I noticed. Could you confirm that these are the differences then we can take the next steps to fix?

Missing conditions (ADD):

2300

Extra conditions (TAKE OUT):

2010

3129

Old wording (CHANGE):

90193 may need a new condition number and should read exactly as follows (only one sentence):

90xxx--- Grant of this application and operations under this license are based upon and subject to the conditions, waivers, and findings specified for Call Sign S2935.

Thank you,

Merissa

**Subject:** Please grant: O3b (E140107) SES-LIC-20141022-00809

Eleanor:

Please grant the subject application from O3b with the conditions attached. Please note among them one condition below is a new one that needs to be assigned with a new code number. Thank you.

*90xxx -- Transmissions between earth station call sign E140107 and O3b Limited NGSO space stations are limited to the provision of gateway and telemetry, tracking, and command (TT&C) services for the O3b Limited NGSO space stations in the 17.8-18.6 GHz (space-to-Earth), 18.8-19.3 GHz (space-to-Earth), 27.6-28.4 GHz (Earth-to-space) and 28.6-29.1 GHz (Earth-to-space) frequency bands.*

Paul, the Hawaii 2.4 M license is ready to grant when you are back in the office.  
I checked with Jose and he said that he doesn't need to see the conditions again.  
Thanks so much,  
Lynne

Attached. Just noting that I haven't run the full authorization to check on the first part of the earth station license, but that should look similar to the other already-issued gateway licenses.

Thanks again,  
Merissa
