

**ISAT US Inc.
FCC Form 312
Exhibit F**

Response to Question E17: Remote Control Point

ISAT US Inc. provides in the Form 312, Schedule B, Items E62 through E68 the U.S. point of contact for the proposed terminals is located at the Lino Lakes Gateway, call sign E120072, which will interface with Inmarsat's network operations center in London. The U.S. point of contact will have the ability to shut down any of the proposed terminals immediately upon notification of harmful interference.
