Call Sign: E150116  
File No.: SES-LIC-20150915-00588

Dear Mr. White:

On September 15, 2015, Denali 20020, LLC ("Denali 20020") filed the above-captioned application for a license to operate a fixed earth station with (1) Intelsat 23 (S2831) at 53 degrees W.L.; (2) Intelsat 25 (S2804) at 31.5 degrees W.L.; and (3) the "Permitted Space Station List" satellites<sup>1</sup> in the 10.95-11.2 GHz and 11.45-12.2 GHz (space-to-Earth), and 14.0-14.5 GHz (Earth-to-space) frequency bands. Pursuant to Section 25.112(a)(1) of the Commission's rules, 47 C.F.R. § 25.112(a)(1), we dismiss the application as defective without prejudice to re-filing.<sup>2</sup>

Section 25.112(a) of the Commission's rules requires the Commission to return, as unacceptable for filing, any earth station application that is not substantially complete, contains internal inconsistencies, or does not substantially comply with the Commission's rules.<sup>3</sup> For the reasons set forth below, we find Denali 20020's application is unacceptable for filing. Specifically:

- Intelsat 23 (S2831) and Intelsat 25 (S2804) are not authorized to operate in 10.95-11.2 GHz frequency band, as you have requested.
- The "Permitted Space Station List" points of communication are only authorized for operations in "conventional" frequency bands.<sup>4</sup> Therefore, your request to communicate with Permitted List satellites in the 10.95-11.2 GHz and 11.45-12.2 GHz frequency bands is inconsistent with the Commission's rules.

<sup>1</sup> See <http://transition.fcc.gov/ib/sd/se/permitted.html>.

<sup>2</sup> If Denali 20020 re-files an application identical to the one dismissed, with the exception of supplying the corrected information, it need not pay an application fee. See 47 C.F.R. § 1.1111(d).

<sup>3</sup> See 47 C.F.R. § 25.112(a).

<sup>4</sup> The conventional Ku-band is limited to the 11.7-12.2 GHz (space-to-Earth) and 14.0-14.5 GHz (Earth-to-space) frequency bands. See 47 C.F.R. § 25.103, Definition of "Permitted Space Station List."

Accordingly, pursuant to Section 25.112(a)(1) of the Commission's rules, 47 C.F.R. §25.112(a)(1), and Section 0.261 of the Commission's rules on delegations of authority, 47 C.F.R. § 0.261, we dismiss Denali 20020's application.

Sincerely,

  
for Paul E. Blais

Chief, Systems Analysis Branch  
Satellite Division  
International Bureau
