Re: Amendments

Mr. Jose Trevino,

Thank you for bringing to our attention the calculation issues on the following files numbers, and the incorrect data being entered onto line E60 of the applications. The affected files numbers are as follows:

- | | |
|--|--|
| 1) File Number: SES-LIC-20170127-00076
Call-sign: E170011 | 3) File Number: SES-LIC-20170127-00078
Call-sign: E170013 |
| 2) File Number: SES-LIC-20170127-00077
Call-sign: E170012 | |

We kindly ask that the following changes, identical to all applications above, be made.

- 1) E40: Total EIRP for All Carriers (dBW) should be changed to 71.52 dBW.
- 2) E48: Maximum EIRP per Carrier (dBW) under 36M0G7F should be changed to 71.52 dBW.
- 3) E49: Maximum EIRP Density per Carrier (dBW) under 36M0G7F should be changed to 31.96 dBW/4KHz
- 4) E48: Maximum EIRP per Carrier (dBW) under 4M00G7F should be changed to 61.98 dBW.
- 5) E49: Maximum EIRP Density per Carrier (dBW) under 4M00G7F should be changed to 22.44 dBW/4KHz.
- 6) E60: Maximum EIRP Density toward the Horizon (dBW/4KHz) should be changed to -14.54 dBW/4KHz.

Thank you your consideration and attention to this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Brian Nelles", is written over a white background.

Brian Nelles

Sr. Vice President
