Re: Amendments

Mr. Jose Trevino,

Thank you for bringing to our attention the calculation issues on the following files numbers, and the incorrect data being entered onto line E60 of the applications. The affected files numbers are as follows:

- | | |
|--|--|
| 1) File Number: SES-LIC-20170127-00091
Call-sign: E170026 | 3) File Number: SES-LIC-20170127-00097
Call-sign: E170032 |
| 2) File Number: SES-LIC-20170127-00092
Call-sign: E170027 | 4) File Number: SES-LIC-20170127-00098
Call-sign: E170033 |

We kindly ask that the following changes, identical to all applications above, be made.

- 1) E60: Maximum EIRP Density toward the Horizon (dBW/4KHz) should be changed to -14.77 dBW/4KHz.

Thank you your consideration and attention to this matter.

Sincerely,

A handwritten signature in black ink that reads "Brian Nelles". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Brian Nelles
Sr. Vice President
PSSI Global Services LLC.
