

## **Non-U.S. Satellites Providing Service in the U.S. (Response to Question 42a)**

EchoStar Broadcasting Holding Corporation is seeking authority to operate this earth station with the following foreign-licensed satellites:

| <b>Point of Communication</b>   | <b>Orbital Location</b> |
|---------------------------------|-------------------------|
| TELSTAR 11N (Canadian Licensed) | 37.5° W.L.              |
| ECHOSTAR 8 (Mexican Licensed)   | 76.90° W.L.             |
| Permitted Space Station List    |                         |

The Commission has already approved operation of the referenced antenna with these foreign-licensed satellites at the antenna's current location under call sign E980127.<sup>1</sup>
