

**UNITED STATES OF AMERICA  
FEDERAL COMMUNICATIONS COMMISSION  
RADIO STATION AUTHORIZATION**

Name: ViaSat, Inc.  
Authorization Type: License  
Non Common Carrier

Call Sign: E190201  
File Number: SES-LIC-20190411-00503  
Grant date: 11/15/2019 Expiration Date: 11/15/2034

Nature of Service: Fixed Satellite Service

Class of Station: Other

**A) Site Location(s)**

#	Site ID	Address	Latitude	Longitude	Elevation (Meters)	Special Provisions NAD (Refer to Section H)
1)	1	CONUS, AK, HI, PR, and US Virgin Islands				NA

*Subject to the provisions of the Communications Act of 1934, The Communications Satellite Act of 1962, subsequent acts and treaties, and all present and future regulations made by this Commission, and further subject to the conditions and requirements set forth in this license, the grantee is authorized to construct, use and operate the radio facilities described below for radio communications for the term beginning November 15, 2019 (3 AM Eastern Standard Time) and ending November 15, 2034 (3 AM Eastern Standard Time). The required date of completion of construction and commencement of operation is November 15, 2020 (3 AM Eastern Standard Time). Grantee must file with the Commission a certification upon completion of construction and commencement of operation.*

**B) Particulars of Operations**

The General Provision 1010 applies to all receiving frequency bands.  
The General Provision 1900 applies to all transmitting frequency bands.  
For the text of these provisions, refer to Section H.

#	Frequency (MHz)	Polarization Code	Emission	Tx/Rx Mode	Max EIRP /Carrier (dBW)	Max EIRP Density /Carrier (dBW/4kHz)	Associated Antenna	Special Provisions (Refer to Section H)	Modulation/ Services
1)	29500.0000-30000.0000	L,R	40M0G7D	Tx	49.30	9.30	G12		40 MBd M-ary PSK, Digital Carrier
2)	29500.0000-30000.0000	L,R	80M0G7D	Tx	49.30	6.30	G12		80 MBd M-ary PSK, Digital Carrier
3)	29500.0000-30000.0000	L,R	160M0G7D	Tx	49.30	3.30	G12		160 MBd M-ary PSK, Digital Carrier
4)	29500.0000-30000.0000	L,R	20M0G7D	Tx	49.30	12.30	G12		20 MBd M-ary PSK, Digital Carrier
5)	28350.0000-29100.0000	L,R	40M0G7D	Tx	48.90	8.90	G12		40 MBd M-ary PSK, Digital Carrier
6)	28350.0000-29100.0000	L,R	80M0G7D	Tx	48.90	5.90	G12		80 MBd M-ary PSK, Digital Carrier
7)	28350.0000-29100.0000	L,R	160M0G7D	Tx	48.90	2.90	G12		160 MBd M-ary PSK, Digital Carrier

Call Sign: E190201

Authorization Type: License

File Number: SES-LIC-20190411-00503

Non Common Carrier

Grant date: 11/15/2019

Expiration Date: 11/15/2034

**B) Particulars of Operations**

The General Provision 1010 applies to all receiving frequency bands.

The General Provision 1900 applies to all transmitting frequency bands.

For the text of these provisions, refer to Section H.

#	Frequency (MHz)	Polarization Code	Emission	Tx/Rx Mode	Max EIRP /Carrier (dBW)	Max EIRP Density /Carrier (dBW/4kHz)	Associated Antenna	Special Provisions (Refer to Section H)	Modulation/ Services
8)	28350.0000-29100.0000	L,R	20M0G7D	Tx	48.90	11.90	G12		20 MBd M-ary PSK, Digital Carrier
9)	27500.0000-28350.0000	L,R	40M0G7D	Tx	48.90	8.90	G12		40 MBd M-ary PSK, Digital Carrier
10)	27500.0000-28350.0000	L,R	80M0G7D	Tx	48.90	5.90	G12		80 MBd M-ary PSK, Digital Carrier
11)	27500.0000-28350.0000	L,R	160MG7D	Tx	48.90	2.90	G12		160 MBd M-ary PSK, Digital Carrier
12)	27500.0000-28350.0000	L,R	20M0G7D	Tx	48.90	11.90	G12		20 MBd M-ary PSK, Digital Carrier
13)	19700.0000-20200.0000	L,R	417MG7D	Rx	0.00	0.00	G12		417 MBd M-ary PSK, Digital Carrier
14)	17700.0000-19300.0000	L,R	417MG7D	Rx	0.00	0.00	G12		417 MBd M-ary PSK, Digital Carrier
15)	17700.0000-19300.0000	L,R	500MG7D	Rx	0.00	0.00	G12		500 MBd M-ary PSK, Digital Carrier

**C) Frequency Coordination Limits**

#	Frequency Limits (MHz)	Satellite Arc (Deg. Long.)		Elevation (Degrees)		Azimuth (Degrees)		Max EIRP Density toward Horizon (dBW/4kHz)	Associated Antenna(s)
		East Limit	West Limit	East Limit	West Limit	East Limit	West Limit		
1)	27500.0000-28350.0000	69.9W	-115.1W	05.0	-05.0	090.0	-270.0	-17.2	G12
2)	17700.0000-19300.0000	69.9W	-115.1W	05.0	-05.0	090.0	-270.0	0	G12
3)	19700.0000-20200.0000	69.9W	-115.1W	05.0	-05.0	090.0	-270.0	0	G12
4)	28350.0000-29100.0000	69.9W	-115.1W	05.0	-05.0	090.0	-270.0	-11.2	G12
5)	29500.0000-30000.0000	69.9W	-115.1W	05.0	-05.0	090.0	-270.0	-12.2	G12

**D) Points of Communications**

The following stations located in the Satellite orbits consistent with Sections B and C of this Entry:

- 1) 1 to VIASAT-1 (S2747) @ 115.1° W.L. (U.S.-licensed)
- 2) 1 to VIASAT-2 (S2902) @ 69.90 W.L. (U.K.-licensed)
- 3) 1 to WildBlue-1 (S2355) @ 111.1° W.L. (Canada-licensed)

**UNITED STATES OF AMERICA  
FEDERAL COMMUNICATIONS COMMISSION  
RADIO STATION AUTHORIZATION**

Name: ViaSat, Inc.

Call Sign: E190201

Authorization Type: License

File Number: SES-LIC-20190411-00503

Non Common Carrier

Grant date: 11/15/2019

Expiration Date: 11/15/2034

**D) Points of Communications**

The following stations located in the Satellite orbits consistent with Sections B and C of this Entry:

4) 1 to ANIK F2 (S2646) @111.1° W.L. (Canada-licensed)

**E) Antenna Facilities**

Site ID	Antenna ID	Units	Diameter (meters)	Manufacturer	Model number	Site Elevation (Meters)	Max Antenna Height (Meters)	Special Provisions (Refer to Section H)
1	G12	1000	0.3	Viasat, Inc.	G12		0 AGL/ 0 AMSL	
Max Gains(s):		33.4 dBi @	20.2000 GHz	33.0 dBi @	19.2000 GHz	32.4 dBi @		
		17.7000 GHz	36.3 dBi @	30.0000 GHz	35.9 dBi @	29.0000 GHz	35.9	
		dBi @	27.9300 GHz					
Maximum total input power at antenna flange (Watts) =					20.00			
Maximum aggregate output EIRP for all carriers (dBW) =					49.30			

**F) Remote Control Point:**

1                      349 Inverness Drive South                      Call Sign:  
                             Englewood, Arapahoe, CO 80112  
                             1 720 493 7300

**G) Antenna Structure marking and lighting requirements:**

None unless otherwise specified under Special and General Provisions

**H) Special and General Provisions**

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

4 --- Licensee must ensure that a current listing of the name, title, mailing address, email address, and telephone number of the responsible point of contact are on file at the FCC. Any changes must be filed electronically in the International Bureau Filing System (MyIBFS) using the "Pleadings and Comments" link on the MyIBFS homepage within 10 days of the change.

8 --- Licensee must notify the Commission when all earth stations operating under this authorization are no longer operational or when they have not been used to provide any service during any 6-month operation.

90062 --- Operation pursuant to this authorization outside the United States in the 14.0-14.5 GHz band must be in compliance with the provisions of Annex 1, Part C of Recommendation ITU-R M.1643, with respect to any radio astronomy station performing observations in the 14.47-14.5 GHz band.

UNITED STATES OF AMERICA

Non Common Carrier

Grant date: 11/15/2019

Expiration Date: 11/15/2034

## H) Special and General Provisions

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

- 90067 --- Operation in the territory or airspace of any country other than the United States must be in compliance with the applicable laws, regulations, and licensing procedures of that country, as well as with the conditions of this authorization.
- 90075 --- Licensee is afforded 30 days from the date of release of this grant and authorization to decline this authorization as conditioned. Failure to respond within this period will constitute formal acceptance of the authorization as conditioned.
- 90079 --- ESAA's in aircraft on the ground must not transmit at elevation angles less than three degrees. There is no minimum angle of antenna elevation for ESAA's while airborne.
- 90081 --- All operations shall be on a non-common carrier basis.
- 90095 --- The licensee shall comply with any pertinent limits established by the International Telecommunication Union to protect other services allocated internationally.
- 90101 --- In the 17.8-20.2 GHz frequency range, in order to protect Federal satellite services, the licensee shall communicate only with satellites whose operator has completed an agreement with Federal operators pursuant to footnote US334 of the U.S. Table of Frequency Allocations, 47 C.F.R. § 2.106, and that agreement has been approved by both the Federal Communications Commission and the National Telecommunications and Information Administration. The licensee's operations pursuant to this authorization shall be consistent with such US334 agreements.
- 90116 --- The licensee must maintain a U.S. point of contact available 24 hours per day, seven days per week, with the authority and ability to terminate operations authorized herein. The licensee shall have available, at all times, the technical personnel necessary to perform supervision of remote station operations.
- 90122 --- The earth stations in this blanket license are operated by remote control. The remote control point is a material term of the license and may not be changed without prior authorization under Section 25.117 of the Commission's rules. Public Notice "The International Bureau Provides Guidance Concerning the Relocation of Earth Station Remote Control Points," DA 06-978 (rel. May 4, 2006).
- 90245 --- When the ESAA network is put into operation, the licensee must file with the Commission a certification including the following information: name of the licensee, file number of the application, call sign of the antenna, date of the license and certification that the network was put into operation and will remain operational during the license period unless the license is submitted for cancellation.
- 90246 --- ESAA's authorized herein must employ a tracking algorithm that is resistant to capturing and tracking adjacent satellite signals, and each station must be capable of inhibiting its own transmission in the event it detects unintended satellite tracking.

Non Common Carrier

Grant date: 11/15/2019

Expiration Date: 11/15/2034

## H) Special and General Provisions

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

90247 --- ESAAAs authorized herein must be monitored and controlled by a ground-based network control and monitoring center. Such stations must be able to receive "enable transmission" and "disable transmission" commands from the network control center and must cease transmission immediately after receiving a "parameter change" command until receiving an "enable transmission" command from the network control center. The network control center must monitor operation of each ESAA to determine if it is malfunctioning, and each ESAA must self-monitor and automatically cease transmission on detecting an operational fault that could cause harmful interference to a fixed-satellite service network.

90248 --- Stations authorized herein must not be used to provide air traffic control communications.

90253 --- When operating in airspace within line-of-sight of the territory of a foreign administration where Fixed Service networks have an allocation in the 28.35- 29.1 GHz or 29.5-30.0 GHz frequency bands, the ESAAAs must not exceed the following EIRP limits:

+64 dBW in any 1 MHz band if Theta is less than or equal to 0°

+64 + 3\*Theta dBW in any 1 MHz band if Theta is greater than 0° but less than or equal to 5°

where Theta is the angle of elevation of the horizon viewed from the center of radiation of the antenna of the earth station and measured in degrees as positive above the horizontal plane and negative below it.

90257 --- ESAAAs authorized herein must be in compliance with the terms of coordination agreements with operators of non-geostationary orbit Fixed Satellite Service space stations operating in the 18.8-19.3 and 28.6-29.1 GHz frequency band. In the event another NGSO FSS system commences operation in the 18.8-19.3 and 28.6-29.1 GHz frequency bands, ESAAAs operating pursuant to this authorization must cease operation unless and until such operation has been coordinated with the new NGSO system operator or the ESAA licensee demonstrates that such operation will not cause harmful interference to the new NGSO system.

90398 --- Changes to previously authorized transmitting facilities, operations and devices regulated by the Commission that may have significant environmental impact, and are not excluded by §1.1306, require the preparation of an Environmental Assessment (EA) by the licensee. (See 47 C.F.R. §§1.1307, 1.1308 and 1.1311)

90399 --- The licensee shall, at all times, take all necessary measures to ensure that operation of this (these) authorized earth station(s) does not create potential exposure of humans to radiofrequency radiation in excess of the FCC exposure limits defined in 47 CFR §§ 1.1307(b) and 1.1310. Physical measures must be taken to ensure compliance with limits for both occupational/controlled exposure and for general population/uncontrolled exposure, as defined in these rule sections. Compliance can be accomplished in most cases by appropriate restrictions, such as fencing. Requirements for restrictions can be determined by predictions based on calculations, modeling, or by field measurements. The FCC's OET Bulletin 65 (available on-line at [www.fcc.gov/oet/rfsafety](http://www.fcc.gov/oet/rfsafety)) provides information on predicting exposure levels and on methods for ensuring compliance, including the use of warning and alerting signs and protective equipment for workers.

Expiration Date: 11/15/2034

## H) Special and General Provisions

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

- 90511 --- Operations pursuant to this authorization must be in compliance with the terms of the coordination agreements with operators of Ka-band geostationary space stations within thirty angular degrees of the target satellites (VIASAT-1, VIASAT-2, WildBlue-1, and ANIK-F2). In the event another GSO space station commences operation in the 28.35-29.1 GHz and 29.5-30.0 GHz frequency bands at a location within thirty degrees of any of the target satellites, ESAAs operating pursuant to this authorization must cease transmitting to the target satellite(s) unless and until such operation has been coordinated with the new space station's operator or ViaSat Inc. demonstrates that such operation will not cause harmful interference to the new co-frequency space station.
- 90512 --- Communications between ViaSat Inc.'s ESAAs and WildBlue-1, ANIK-F2, VIASAT-1, and VIASAT-2 must be in compliance with all existing and future space station coordination agreements reached between Canada and other Administrations.
- 90513 --- We grant waivers of the U.S. Table of Frequency Allocations, the Commission's Ka-band plan, and footnote 2 to the table in 47 C.F.R. § 25.202 to authorize the operation of ESAA Antenna ID G12 in this frequency band. Operations of ESAA Antenna IDs G12 antenna in the 27.5-28.35 GHz frequency band must be conducted on a non-interference basis and must cease in the event of harmful interference. Operations of ESAAs in the 27.5-28.35 GHz frequency band are subject to any future decisions the Commission may take about operations in this band. Waiver is based on the public interest in providing broadband services to passengers aboard aircraft. Because the waiver is conditioned on operations on an unprotected and non-interference basis solely at altitudes above 10,000 feet of mean sea level, and on a secondary, non-harmful interference basis with respect to UMFU services, the underlying purpose of the rules in protecting primary terrestrial spectrum users from interference is not undermined by grant of this waiver.
- 90514 --- Viasat's requests for waiver to receive communications in the 17.7-17.8 GHz (space-to-Earth) frequency band for the Viasat-2 satellite, which was granted at the time of the market access grant, is granted.
- 90531 --- Unless and until the licensee successfully completes coordination of its operations in the 18.8-19.3 GHz and 28.6-29.1 GHz bands with O3b Limited (O3b), the licensee must use its Network Management System to maintain a separation angle of 7.6 degrees for each ESAA from O3b's system.
- 90549 --- The ESAAs authorized herein must comply with the terms of the applicable space station authorization(s) as well as the Commission's rules on frequency use, including 47 CFR § 25.202, 47 CFR § 25.228, and applicable footnotes to the Table of Frequency Allocations, 47 CFR § 2.106, including NG52, NG457A, and NG527A.

UNITED STATES OF AMERICA  
FEDERAL COMMUNICATIONS COMMISSION  
**RADIO STATION AUTHORIZATION**

Name: ViaSat, Inc.

Call Sign: E190201

Authorization Type: License

File Number: SES-LIC-20190411-00503

Non Common Carrier

Grant date: 11/15/2019

Expiration Date: 11/15/2034

B) This RADIO STATION AUTHORIZATION is granted subject to the additional conditions specified below:

This authorization is issued on the grantee's representation that the statements contained in the application are true and that the undertakings described will be carried out in good faith.

This authorization shall not be construed in any manner as a finding by the Commission on the question of marking or lighting of the antenna system should future conditions require. The grantee expressly agrees to install such marking or lighting as the Commission may require under the provisions of Section 303(q) of the Communications Act. 47 U.S.C. § 303(q).

Neither this authorization nor the right granted by this authorization shall be assigned or otherwise transferred to any person, firm, company or corporation without the written consent of the Commission. This authorization is subject to the right of use or control by the government of the United States conferred by Section 706 of the Communications Act. 47 U.S.C. § 706. Operation of this station is governed by Part 25 of the Commission's Rules. 47 C.F.R. Part 25.

This authorization shall not vest in the licensee any right to operate this station nor any right in the use of the designated frequencies beyond the term of this license, nor in any other manner than authorized herein.

This authorization is issued on the grantee's representation that the station is in compliance with environmental requirements set forth in Section 1.1307 of the Commission's Rules. 47 C.F.R. § 1.1307.

This authorization is issued on the grantee's representation that the station is in compliance with the Federal Aviation Administration (FAA) requirements as set forth in Section 17.4 of the Commission's Rules. 47 C.F.R. § 17.4.

The following condition applies when this authorization permits construction of or modifies the construction permit of a radio station.

This authorization shall be automatically forfeited if the station does not meet each required construction deadline by the required date of completion unless, before such date(s), a specific application is timely filed to request an extension of the construction deadline(s), supported with good cause why that failure to construct by the required date was due to factors not under control of the grantee.

**Licensees are required to pay annual regulatory fees related to this authorization. The requirement to collect annual regulatory fees from regulatees is contained in Public Law 103-66, "The Omnibus Budget Reconciliation Act of 1993." These regulatory fees, which are likely to change each fiscal year, are used to offset costs associated with the Commission's enforcement, public service, international and policy and rulemaking activities. The Commission issues a Report and Order each year, setting the new regulatory fee rates. Receive only earth stations are exempt from payment of regulatory fees.**
