Jae,

I spoke with the engineer for this project and he confirmed that the coordinates listed in the application and the frequency coordination are incorrect. The correct coordinates are: 65-41-50.2N, 156-21-47.2W.

He is requesting a new frequency coordination and we will amend the application once we receive the final report.

Please let me know if you have any questions or need additional information.

Thank you,

CINDY HALL
