Jason,

Per 25.212(c)(2) power density must not exceed -14 dBW/4kHz and we need to lower EIRP density by 0.4 dBW to 29 dBW/4kHz.

Please confirm this change and I will update your application.

Thanks.

Jae:

Elizabeth forwarded me the email below and I apologize for the error as this is an application for a temporary fixed earth station, not fixed. Let me know what you may need from me to correct the error. Thank you!

Hi Elizabeth Ryder,

I hope you and your family are safe and well.

I'm working on your LIC application and have a quick question for you.

On your form 312 you said this is a fixed earth station.

Is this a temporary fixed earth station (https://www.ecfr.gov/cgi-bin/text-idx?SID=06b789793c3a5a552f0a7bcfd6f03bd0&mc=true&node=pt47.2.25&rgn=div5#se47.2.25_1277)?

Please confirm.

Thanks.
