#### 1. Summary of Results

On behalf of SPACE EXPLORATION HOLDINGS, Comsearch performed a coordination notice under Section 25.203(c) and Section 25.136(a)(4) of the FCC's rules for all existing and proposed terrestrial licenses within the coordination contours of their proposed Ka-Band earth station in Boca Chica, TX, which will transmit at 28 GHz<sup>1</sup>. Prior-notification letters were sent to the licensees and a copy of the notification data is provided in section four of this report. The earth station coordination was finalized on April 6, 2020.

No objections were received from any of the incumbent 28 GHz licensees.

#### 2. 28 GHz Common Carrier and LTTS Coordination

In accordance with FCC Rules and Regulations, the Ka-Band earth station in Boca Chica, TX was prior-coordinated by Comsearch. A notification letter and datasheets for this earth station were sent to the following 28 GHz common carrier fixed microwave licensees. These licensees are authorized to operate temporary fixed operations from 27.5 – 29.5 GHz on a nationwide basis or local basis.

| Licensee | Authorized Geographic Area |
|----------|----------------------------|
| Frontier | Nationwide                 |

A notification letter and datasheets for the Ka-Band earth station in Boca Chica, TX were also sent to the following 28 GHz local television transmission licensee. This licensee is authorized to operate temporary fixed operations from 27.5 – 29.5 GHz on a nationwide basis.

| Licensee                       | Authorized Geographic Area |
|--------------------------------|----------------------------|
| Information Super Station, LLC | Continental US             |

No objections were received from the common carrier or local television transmission service incumbents.

 $<sup>^{1}</sup>$  The proposed earth station will operate in the 27.5 – 29.1 GHz & 29.5 – 30.0 GHz portion of the Ka-Band.

#### **3.** 28 GHz UMFUS Coordination

There were four 28 GHz UMFUS licensees identified within the coordination distance of the proposed earth station. The proposed earth station will operate on frequencies that overlap Channel L1 & L2 of the UMFUS service. The total frequency allocation for Channels L1 & L2 of the UMFUS spectrum appears below.

| Channel: | L1 | 27.500 - 27.925 GHz |
|----------|----|---------------------|
|          | L2 | 27.925 - 28.350 GHz |

| Licensee                  | Authorized Geographic Area |
|---------------------------|----------------------------|
| DISH Network              | Market-Based               |
| McBride Spectrum Partners | Market-Based               |
| T-Mobile                  | Market-Based               |
| Verizon                   | Market-Based               |

No objections were received from the UMFUS incumbents.

### 4. Earth Station Coordination Data

This section presents the data pertinent to the proposed Ka-Band earth station in Boca Chica, TX. This data was circulated to all incumbent licensees in the shared 28 GHz frequency ranges.
