Re: *SpaceX Services, Inc., IBFS File No. SES-LIC-20200410-00400*

Dear Ms. Dortch:

SpaceX Services, Inc. (“SpaceX Services”) has filed the above referenced application for authority to operate a gateway earth station in Warren, MO. Unfortunately, in reviewing that application, SpaceX has discovered an error within the narrative submitted with the application. SpaceX interchangeably referenced site shielding at levels of 9 dB and 12 dB. This was an unfortunate area of confusion—in all instances where site shielding is discussed, it should be at the levels of 12 dB.

We apologize for any confusion, and request that you update the Commission’s records to reflect this correction.

Respectfully submitted,

Mary Shurtz
Global Gateway Site Acquisition Analyst
