Re: *SpaceX Services, Inc., IBFS File No. SES-LIC-20200428-00458*

Dear Ms. Dortch:

SpaceX Services, Inc. (“SpaceX Services”) has filed the above referenced application for authority to operate a gateway earth station in Los Angeles, CA. Unfortunately, in reviewing that application, SpaceX has discovered an error within the narrative submitted with the application. SpaceX stated on page 8 of the narrative that we “ran the analysis both with and without including the effect of the YY dB of radiofrequency shielding that SpaceX will install surrounding the site.” This was an error, where it should have read “16 dB” instead of “YY dB.” Elsewhere in the narrative, the amount of shielding is correctly identified as 16 dB.

We apologize for any confusion, and request that you update the Commission’s records to reflect this correction.

Respectfully submitted,

Mary Shurtz
Global Gateway Site Acquisition Analyst
