

UNITED STATES OF AMERICA
FEDERAL COMMUNICATIONS COMMISSION
RADIO STATION AUTHORIZATION

Name: Myriota Pty Ltd
Authorization Type: License
 Non Common Carrier

Call Sign: E202161
File Number: SES-LIC-20200922-01030

Grant date: 03/31/2021 **Expiration Date:** 03/31/2036

Nature of Service: Mobile Satellite Service

Class of Station: Mobile Earth Station

A) Site Location(s)

#	Site ID	Address	Latitude	Longitude	Elevation (Meters)	Special Provisions NAD (Refer to Section H)
1)	METBLIC	CONUS/USTERR/WATERS AK, HI, PR, GU, AS, VI, MP			0	83

Subject to the provisions of the Communications Act of 1934, The Communications Satellite Act of 1962, subsequent acts and treaties, and all present and future regulations made by this Commission, and further subject to the conditions and requirements set forth in this license, the grantee is authorized to construct, use and operate the radio facilities described below for radio communications for the term beginning March 31, 2021 (3 AM Eastern Standard Time) and ending March 31, 2036 (3 AM Eastern Standard Time) . The required date of completion of construction and commencement of operation is March 31, 2022 (3 AM Eastern Standard Time) . Grantee must file with the Commission a certification upon completion of construction and commencement of operation.

B) Particulars of Operations

The General Provision 1010 applies to all receiving frequency bands.

The General Provision 1900 applies to all transmitting frequency bands.

For the text of these provisions, refer to Section H.

#	Frequency (MHz)	Polarization Code	Emission	Tx/Rx Mode	Max EIRP /Carrier (dBW)	Max EIRP Density /Carrier (dBW/4kHz)	Associated Antenna	Special Provisions (Refer to Section H)	Modulation/ Services
1)	400.1500-401.0000	V	2K0F1D	Rx	0.00	0.00	1		FSK / Data (non-voice)
2)	400.1500-401.0000	V	4K00F1D	Rx	0.00	0.00	1		FSK / Data (non-voice)
3)	399.9000-400.0500	V	2K00F1D	Tx	3.00	3.00	1		FSK / Data (non-voice)
4)	399.9000-400.0500	V	2K36F1D	Tx	0.00	0.00	1		FSK / Data (non-voice)
5)	399.9000-400.0500	V	4K00F1D	Tx	3.00	3.00	1		FSK / Data (non-voice)
6)	400.1500-401.0000	V	2K0F1D	Rx	0.00	0.00	10		FSK / Data (non-voice)
7)	400.1500-401.0000	V	4K00F1D	Rx	0.00	0.00	10		FSK / Data (non-voice)
8)	399.9000-400.0500	V	2K00F1D	Tx	-8.00	-8.00	10		FSK / data (non-voice)
9)	399.9000-400.0500	V	4K00F1D	Tx	-8.00	-8.00	10		FSK / Data (non-voice)

D) Points of Communications

The following stations located in the Satellite orbits consistent with Sections B and C of this Entry:

- 1) METBLLIC to Myriota (S3047) satellites (NGSO) NVNG Satellite Service operating in (400 to 600 KM in 18 orbital planes of 1 to 2 satellites each)

G) Antenna Structure marking and lighting requirements:

None unless otherwise specified under Special and General Provisions

H) Special and General Provisions

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

4 --- Licensee must ensure that a current listing of the name, title, mailing address, email address, and telephone number of the responsible point of contact are on file at the FCC. Any changes must be filed electronically in the International Bureau Filing System (MyIBFS) using the "Pleadings and Comments" link on the MyIBFS homepage within 10 days of the change.

8 --- Licensee must notify the Commission when all earth stations operating under this authorization are no longer operational or when they have not been used to provide any service during any 6-month operation.

90398 --- Changes to previously authorized transmitting facilities, operations and devices regulated by the Commission that may have significant environmental impact, and are not excluded by §1.1306, require the preparation of an Environmental Assessment (EA) by the licensee. (See 47 C.F.R. §§1.1307, 1.1308 and 1.1311)

Grant date: 03/31/2021 **Expiration Date:** 03/31/2036

H) Special and General Provisions

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

90399 --- The licensee shall, at all times, take all necessary measures to ensure that operation of this (these) authorized earth station(s) does not create potential exposure of humans to radiofrequency radiation in excess of the FCC exposure limits defined in 47 CFR §§ 1.1307(b) and 1.1310. Physical measures must be taken to ensure compliance with limits for both occupational/controlled exposure and for general population/uncontrolled exposure, as defined in these rule sections. Compliance can be accomplished in most cases by appropriate restrictions, such as fencing. Requirements for restrictions can be determined by predictions based on calculations, modeling, or by field measurements. The FCC's OET Bulletin 65 (available on-line at www.fcc.gov/oet/rfsafety) provides information on predicting exposure levels and on methods for ensuring compliance, including the use of warning and alerting signs and protective equipment for workers.

90608 --- Per Myriota Pty. Ltd, Order and Declaratory Ruling, DA 20-571 (Int'l Bur., May 29, 2020), operations may not commence until the following conditions are met:

1. Myriota may not commence operations in the U.S. market until it has completed coordination with the National Telecommunications and Information Administration.
2. Prior to commencing operations in the U.S. market in the 400.15-401 MHz (space-to-earth) band, Myriota must certify that it has completed a coordination agreement with the Department of Commerce/National Oceanic and Atmospheric Administration for operations in this band.
3. Prior to commencing operations in the U.S. market in the 400.15-400.505 MHz (space-to-Earth) and 400.645-401 MHz (space-to-earth) bands, Myriota must certify that it has completed a coordination agreement with Orbcomm in these frequency bands. Absent a coordination agreement with Orbcomm, Myriota must file a modification application demonstrating that such operations will not interfere with Orbcomm, and it may not commence operations in these bands until grant of any modification application.
4. In the absence of a coordination agreement among the operators of systems in the 400 MHz Processing Round that have been licensed or granted access to the United States market, the available spectrum will be divided equally among these systems, and this license is restricted to the allocation defined. Within 30 days this licensee must submit a modification to this authorization to bring it into compliance with the new allocation or this authorization will become invalid.
5. If a division of spectrum occurs, Myriota must comply with the requirements of section 25.157 for band selection and notification, 47 CFR § 25.157.
6. Myriota must comply with ITU Radio Regulation 5.260, as modified by ITU-WRC 19, regarding the maximum e.i.r.p. of any emission of MSS earth stations in the 399.9-400.05 MHz band.
7. This market access grant and any earth station licenses granted in the future are subject to modification to bring them into conformance with any applicable rules and policies adopted by the Commission in the future.
8. Myriota must launch 50 percent of the maximum number of proposed space stations, place them in the assigned orbits, and operate them in accordance with this grant no later than May 29, 2026, and must launch the remaining space stations necessary to complete its authorized service constellation, place them in their assigned orbits, and operate them in accordance with this grant no later than May 29, 2029. 47 CFR § 25.164(b)."

90634 --- Within 30 days of the grant of this authorization, Myriota must file a letter in IBFS, File number SES-LIC-20200922-01030, providing the status of its compliance with items (3) and (4) of condition 90608 herein.

90635 --- Within 10 days of commencing operations under this authorization, Myriota must file a letter in IBFS, File number SES-LIC-20200922-01030, providing the date that operations commenced.

RADIO STATION AUTHORIZATION

Name: Myriota Pty Ltd

Authorization Type: License

Non Common Carrier

Call Sign: E202161

File Number: SES-LIC-20200922-01030

Grant date: 03/31/2021 **Expiration Date:** 03/31/2036

B) This RADIO STATION AUTHORIZATION is granted subject to the additional conditions specified below:

This authorization is issued on the grantee's representation that the statements contained in the application are true and that the undertakings described will be carried out in good faith.

This authorization shall not be construed in any manner as a finding by the Commission on the question of marking or lighting of the antenna system should future conditions require. The grantee expressly agrees to install such marking or lighting as the Commission may require under the provisions of Section 303(q) of the Communications Act. 47 U.S.C. § 303(q).

Neither this authorization nor the right granted by this authorization shall be assigned or otherwise transferred to any person, firm, company or corporation without the written consent of the Commission. This authorization is subject to the right of use or control by the government of the United States conferred by Section 706 of the Communications Act. 47 U.S.C. § 706. Operation of this station is governed by Part 25 of the Commission's Rules. 47 C.F.R. Part 25.

This authorization shall not vest in the licensee any right to operate this station nor any right in the use of the designated frequencies beyond the term of this license, nor in any other manner than authorized herein.

This authorization is issued on the grantee's representation that the station is in compliance with environmental requirements set forth in Section 1.1307 of the Commission's Rules. 47 C.F.R. § 1.1307.

This authorization is issued on the grantee's representation that the station is in compliance with the Federal Aviation Administration (FAA) requirements as set forth in Section 17.4 of the Commission's Rules. 47 C.F.R. § 17.4.

The following condition applies when this authorization permits construction of or modifies the construction permit of a radio station.

This authorization shall be automatically forfeited if the station is not ready for operation by the required date of completion of construction unless an application for modification of authorization to request additional time to complete construction is filed by that date, together with a showing that failure to complete construction by the required date was due to factors not under control of the grantee.

Licensees are required to pay annual regulatory fees related to this authorization. The requirement to collect annual regulatory fees from regulatees is contained in Public Law 103-66, "The Omnibus Budget Reconciliation Act of 1993." These regulatory fees, which are likely to change each fiscal year, are used to offset costs associated with the Commission's enforcement, public service, international and policy and rulemaking activities. The Commission issues a Report and Order each year, setting the new regulatory fee rates. Receive only earth stations are exempt from payment of regulatory fees.
