FREQUENCY COORDINATION AND INTERFERENCE ANALYSIS REPORT

Prepared for
GUSA Licensee, LLC
SOUTH POINT 3, HI
Satellite Earth Station

Prepared By:
COMSEARCH
19700 Janelia Farm Boulevard
Ashburn, VA 20147
December 03, 2020

TABLE OF CONTENTS

1. CONCLUSIONS	3
2. SUMMARY OF RESULTS	4
3. SUPPLEMENTAL SHOWING	5
4. EARTH STATION COORDINATION DATA.....	6
5. CERTIFICATION.....	10

1. CONCLUSIONS

An interference study considering all existing, proposed and prior coordinated microwave facilities within the coordination contours of the proposed earth station demonstrates that this site will operate satisfactorily with the common carrier microwave environment. Further, there will be no restrictions of its operation due to interference considerations.

2. SUMMARY OF RESULTS

A number of great circle interference cases were identified during the interference study of the proposed earth station. Each of the cases, which exceeded the interference objective on a line-of-sight basis, was profiled and the propagation losses estimated using NBS TN101 (Revised) techniques. The losses were found to be sufficient to reduce the signal levels to acceptable magnitudes in every case.

3. SUPPLEMENTAL SHOWING

Pursuant to Part 25.203(c) of the FCC Rules and Regulations, the satellite earth station proposed in this application was coordinated by Comsearch using computer techniques and in accordance with Part 25 of the FCC Rules and Regulations.

Coordination data for this earth station was sent to the below listed carriers with a letter dated 10/29/2020.

Company

Hawaii Electric Light Co Inc

Hawaii, State of

Kaiser Ind Corp

Mauna Kea Broadcasting Company, Inc.

4. EARTH STATION COORDINATION DATA

This section presents the data pertinent to frequency coordination of the proposed earth station that was circulated to all carriers within its coordination contours.

Information on Microwave Landing System Sites

For the Naalehu, Hawaii, Globalstar gateway site, there are five potential MLS sites, i.e., Category III airports, within the 200 nautical mile coordination distance. The Hawaii site is located at 19° 0' 51.9984" N, 155° 39' 47.0016" W. The airports are:

ITO	Hilo International Airport ITO, approximately 56.9 nautical miles from Naalehu
KOA	Ellison Onizuka Kona International Airport, approximately 58.1 miles away
MUE	Waimea-Kohala Airport, approximately 83.4 nautical miles away
UPP	Upolu Airport, approximately 97.3 nautical miles away
BSF	Bradshaw Army Airfield, approximately 86.2 nautical miles away

This site falls outside the 39.8 nautical mile maximum trigger distance for MLS/MSS coordination. In addition, based on a directory used for MLS coordination purposes, and to the best of its knowledge, Globalstar believes that MLS is not active at any of these airport sites.
