Re: *Erratum – IBFS File No. SES-LIC-20210708-01019*

Dear Ms. Dortch:

SpaceX Services, Inc. (“SpaceX Services”) recently filed supplemental information in further support of its application for a blanket license authorizing operation of next-generation end-user earth stations (“UTs”) for use at fixed locations.<sup>1</sup> Unfortunately, footnote 1 of that submission included an incorrect citation to an updated IEEE standard. For the record, the correct citation is:

*IEEE Std C95.3-2021, IEEE Recommended Practice for Measurements and Computations of Electric, Magnetic, and Electromagnetic Fields with Respect to Human Exposure to Such Fields, 0 Hz to 300 GHz, IEEE Standards Association (approved Mar. 25, 2021).*

We regret any confusion this may have caused.

Sincerely,

*/s/ David Goldman*
