

Denali 20020, LLC request for reinstatement of expired Call Sign E040368. This application is intended to cover the facilities previously licensed under call sign E040368, whose license inadvertently was allowed to expire. All operating parameters will remain unchanged from that which was previously licensed under SES-MOD-20150410-00210, with the exception of the addition of the uplink spectrum of 13750 – 14000 MHz. Although Denali 20020, LLC understands that the FCC is not obligated to reinstate the expired Call Sign E040368, it is requested the same Call Sign (E040368) be assigned to this new license request, since this earth station has been under continuous protection by Comsearch as documented in section E18 of Schedule B of this application.
