Application for Modification of Direct Broadcast Satellite Authorization To Permit Long-Term Cessation of Operations at the 157° W.L. Orbital Location) File No. SAT-MOD-20050513-00103) Call Sign: S2621
Application for Modification of Earth Station Authorization to add the Echostar 4 Satellite at 77° W.L. as a Point of Communication) File No. SES-MFS-20050527-00662 Call Sign: E020306

On June 14, 2005, I, along with Roderick Porter, Thomas Tycz, Jennifer Gilsenan, and Gardner Foster, members of my staff, participated in a teleconference with a representative of the Mexican telecommunications regulatory body, Mr. Eugenio Gamboa Hirales, *Coordinator de Desarrollo Tecnologico, Secretaria de Communicaciones y Transportes* ("SCT") regarding matters related to the above referenced filings by Echostar. Specifically, we noted the pendency of all publicly filed documents in the referenced subject matter. We also discussed the need for an exchange of letters which is customary in these types of requests to use foreign orbital locations.

Donald Abelson,

Chief,
