Dear Ms. Dortch:

I am requesting the FCC to grant the above referenced applications of Telenor Satellite, Inc. without further delay so that I and other customers may continue to enjoy the services provided by Telenor on the Inmarsat 4F2 satellite. This service is on my motor yacht and, it is very important that I have this service.

I also urge the FCC to allow Telenor to operate on a non-harmful interference basis in the L-band. Restricting Telenor's access to L-band frequencies could adversely affect service quality to the detriment of my and other customers.

Respectfully submitted,

William McCarthy
