Dear Ms. Dortch:

Brazil Outreach Ministries Unlimited, urges the FCC to grant the above-referenced applications of Telenor Satellite, Inc. without further delay so that it and other customers may continue to enjoy the services provided by Telenor on the Inmarsat 4F2 satellite. We are serviced in the jungle of Brazil in the Amazon basin.

We also urge the FCC to allow Telnor to operate on a non-harmful interference basis in the L-band. Restricting Telenor's access to the L-band frequencies could adversely affect service quality to the detriment of Brazil Outreach Ministries Unlimited and other customers.

Respectfully submitted,

Ron LeCrone
