Re: File No.: SES-MFS-20061213-02158  
Call Sign: E930191

Dear Mr. Wiltshire:

On December 13, 2006, DirecTV Enterprises, LLC. (DirecTV) filed the above-captioned modification application to add additional DIRECTV satellites as points of communications and emission designators<sup>1</sup> to its direct broadcast satellite (DBS) earth station license.<sup>2</sup> For the reasons stated below, we dismiss the application, in part, as defective without prejudice to refiling.

In response to Question E18 of Schedule B of FCC Form 312, DirecTV indicates that frequency coordination is not required and therefore does not include a frequency coordination report. However, pursuant to Section 25.203(c) of the Commission's rules, 47 C.F.R. § 25.203(c), all earth station applicants must complete frequency coordination if they intend to operate in frequency bands shared with terrestrial services on a co-primary basis. Although DirecTV previously filed a frequency coordination report for this earth station, that report does not include the proposed added analog emission 82K0F3N which will operate in the 17.7-17.8 GHz band. Therefore, the application is incomplete with respect to this emission.

Accordingly, pursuant to Section 25.112(a)(1) of the Commission's rules, 47 C.F.R. §25.112(a)(1), and Section 0.261 of the Commission's rules on delegations of authority, 47 C.F.R. §0.261, we dismiss that portion of DirecTV's application requesting to add emission 82K0F3N without prejudice to refiling.<sup>3</sup>

Sincerely,

A handwritten signature in black ink that reads "Scott A. Kotler".

Scott A. Kotler  
Chief, Systems Analysis Branch  
Satellite Division  
International Bureau

<sup>1</sup> 24M0G7W, 1M00F2D, and 82K0F3N.

<sup>2</sup> 12.2-12.7 GHz and 17.3-17.8 GHz.

<sup>3</sup> If DirecTV refiles an application identical to the one dismissed, with the exception of supplying the corrected information, it need not pay an application fee. See 47 C.F.R. §1.1109(d).
