Re: **Applications for Authority to Relocate and Operate the EchoStar 1 Satellite at 77.15° W.L. File Nos. SAT-STA-20090130-00013, SAT-STA-20090130-00014, SES-STA-20090130-00111, SES-STA-20090130-00112, SES-STA-20090130-00113, SES-STA-20090130-00114, SES-STA-20090130-00115, SES-AFS-20090130-00107, SES-MFS-20090130-00108, SES-MFS-20090130-00109**

Dear Ms. Dortch:

Pursuant to Section 1.65 of the Commission's rules, 47 C.F.R. § 1.65, EchoStar Corporation ("EchoStar") submits the following updated information for inclusion in the above referenced application files. The applications request various space station and earth station authority required to relocate the EchoStar 1 satellite from 148° W.L. and to operate it at 77.15° W.L. under Mexican authority.

At the time these applications were filed, EchoStar anticipated that the EchoStar 1 satellite would be available for relocation by April 15, 2009, and would reach 77.15° W.L. on or around May 22, 2009. EchoStar now expects that the EchoStar 1 satellite will begin relocating to 77.15° W.L. on or around June 7, 2009, after the EchoStar 5 satellite arrives at 148° W.L. and traffic is transferred. EchoStar 1 is expected to arrive at 77.15° W.L. between July 15 and August 17, 2009.

We respectfully request that this information be incorporated into the above referenced files.

Sincerely,

Petra A. Vorwig

*Counsel for EchoStar Corporation*
