Re: Hisparmar Satellites S.A. IBFS Application SAT-PPL-20121018-00183/  
Call Sign: E130083

Dear Secretary Dortch:

The petition of Hisparmar Satellites S.A. ("Hisparmar") IBFS file N° SAT-PPL-20121018-00183/ to add the Amazonas-3 space station (Call Sign S2886) to the Commission's Permitted Space Station List was granted on 14<sup>th</sup> March 2013 for C and Ku bands. The Schedule-S and complementary exhibits that accompanied the above-referenced application included technical parameters for Amazonas-3 transponders that also operate in the 13.75-14.0 GHz extended Ku-band frequency range. These technical parameters remain unchanged and accurately reflected in the Schedule-S and complementary exhibits.

If you have any questions, please do not hesitate to contact the undersigned.

Sincerely,

Ruben Levcovitz  
Business Director, North America, Central America and the Caribbean  
Hisparmar Satellites S.A.
