

C-band Frequency Coordination Explanation

It is noted that as explained in the response for 25.221(a)(11) in Exhibit 1, numerous C-band ESV interference studies and frequency coordinations have been completed for ASTRIUM by Comsearch and Skjei Telecom. Notifications concerning completion of those coordinations have been filed with the Commission (under the WB36 and KA249 licenses) as specified in the Commission's Public Notice DA 05-1671, Released: June 15, 2005 and the Notifications have been placed on Public Notice. Other coordinations may be completed as-needed and if so, Notifications for same will be filed with the Commission for Public Notice as they are completed.

Therefore, no Frequency Coordinations are being submitted with this Application.
