

**CORRECTION TO NARRATIVE & PART 25 COMPLIANCE EXHIBIT  
WB36  
SES-MFS-20150130-00047**

The responses set forth on the last page of “Exhibit 1 - Narrative & Part 25 Compliance” asserting applicant’s compliance with Sections 25.222 (c) & (d) of the Commission’s Rules for Earth Stations on Vessels require correction.

The last sentence of the response for 25.222 (c) stated –

Until the coordination process is completed ASGI will continue to comply with 25.222 (c) by not operating Ku-band ESVs at all in the 14.47 – 14.5 GHz frequency band within the specified distances of the protected facilities.

The sentence should state –

Until the coordination process is completed ASBCI will continue to comply with 25.222 (c) by not operating Ku-band ESVs at all in the 14.0 – 14.2 GHz frequency band within the specified distances of the protected facilities.

The response for 25.222 (d) stated –

(d) Comply. ASGI does not operate any ESVs in the 14.47 – 14.5 GHz frequency band.

The response should state –

(d) Comply. Until the coordination process is completed ASBCI will continue to comply with 25.222 (d) by not operating Ku-band ESVs at all in the 14.47 – 14.5 GHz frequency band within the specified distances of the protected facilities.

Please replace the original responses for Sections 25.222 (c) & (d) currently set forth on the last page of the Narrative exhibit with the responses set forth on the following page to correct the errors.

- .....
- (c) Comply. ASGI has completed coordination with NASA for ESV operations in the 14.0 – 14.2 GHz frequency band within 125 km of NASA TDRSS facilities protected per 24.222 (c). The coordination has been filed with the Commission for completion of the coordination process. Until the coordination process is completed ASBCI will continue to comply with 25.222 (c) by not operating Ku-band ESVs at all in the 14.0 – 14.2 GHz frequency band within the specified distances of the protected facilities.
  - (d) Comply. Until the coordination process is completed ASBCI will continue to comply with 25.222 (d) by not operating Ku-band ESVs at all in the 14.47 – 14.5 GHz frequency band within the specified distances of the protected facilities.
