**Re: Emerging Markets Communications, LLC, Modification Application,
File No. SES-MFS-20170906-00982, Call Sign E980250,
Clarification Letter Pursuant to Section 1.65 of the FCC's Rules**

Dear Ms. Dortch:

Emerging Markets Communications, LLC (“EMC”) submits this letter in response to a request from the Satellite Division to clarify in two minor respects the scope of the modified authority requested in the above-referenced application.

First, the current license under Call Sign E980250 specifies the Philippine satellite Mabuhay (Agila 2) at 146° E.L as a point of communication. It is our understanding that the referenced satellite has been removed from that location, and is no longer in service; therefore, it can be removed from the license, as modified.

Second, in the initial application at Line 43, EMC noted that its modification included a request to “extend the satellite arc.” A more accurate description of this request, as is reflected in the Frequency Coordination section of Schedule B, is to change the satellite arc information for some of the currently authorized frequencies to reflect the satellite points of communication authorized and requested.

LS

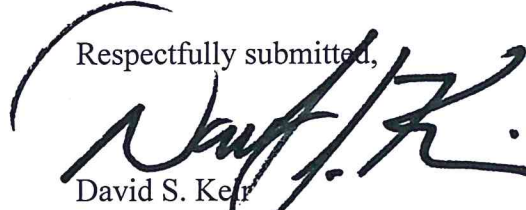

Ms. Marlene H. Dortch

With these clarifications, we hope that you are able to place the application on Public Notice as accepted for filing. Of course, should there be any additional questions regarding the application, as clarified, please contact the undersigned counsel.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "David S. Keir". The signature is written in a cursive, fluid style with a large initial "D" and "K".

David S. Keir

Counsel to Emerging Markets Communications
