Re: Expanding Flexible Use of the 3.7 to 4.2 GHz Band, GN Docket No. 18-122, Certification of ITC Global, Inc.

Dear Ms. Dortch:

In a July 2018 Order, the Commission directed operators of FSS earth stations, including temporary fixed or transportable earth stations, in the 3.7-4.2 GHz band that are licensed or registered (authorized) in IBFS to certify the accuracy of all information reflected on their license or registration in IBFS, except for new or modified licenses or registrations filed by the operator during the window the Commission established for such filings between April 19, 2018 and October 31, 2018.¹ The required certifications must be filed with the Commission through IBFS no later than May 28, 2019.²

ITC Global, Inc. (“ITC Global,” FCC Registration No. 0020923488), holds the following license that is subject to the Commission’s certification requirement:³

Licensee Name	File Number	Callsign
ITC Global	SES-MFS-20090612-00727	E850127

¹ See *Expanding Flexible Use of the 3.7 to 4.2 GHz Band*, GN Docket No. 18-122, Order and Notice of Proposed Rulemaking, FCC 18-91, 33 FCC Rcd 6915 (2018), at ¶ 19 (“*Certification Order*”); Public Notice, “International Bureau Announces Two-Week Extension of Filing Window for Earth Stations Currently Operating in 3.7-4.2 GHz Band,” GN Docket No. 18-122, DA 18-1061, 33 FCC Rcd 10054 (Int. Bur. 2018) (extending filing window).

² Public Notice, “Deadline for Submission of Information on Earth Station and Satellite Use of the 3.7-4.2 GHz Band,” GN Docket No. 18-122, DA 19-278 (Int. Bur., rel. Apr. 11, 2019) (“*Certification Public Notice*”).

³ ITC Global also holds an additional C-band earth station license (E070239) authorizing ESV operations. That license is the subject of a pending application to modify the C-band parameters of the license (SES-MFS-20180829-02321, filed August 29, 2018) and is therefore exempt from certification under the *Certification Order* and the *Certification Public Notice*.

Pursuant to the requirements of the *Certification Order* and the *Certification Public Notice*, ITC Global hereby certifies as follows with respect to the 3.7-4.2 GHz operating parameters shown in the license identified above:

The undersigned, individually and for the applicant, licensee, or registrant, hereby certifies that all information reflected in his or her licenses or registrations in IBFS, including any attached exhibits, are true, complete and correct to the best of his or her knowledge and belief, and have been made in good faith.

Please contact me should you have any questions.

Very truly yours,

EllenAnn Sands
