

**UNITED STATES OF AMERICA  
FEDERAL COMMUNICATIONS COMMISSION  
RADIO STATION AUTHORIZATION**

**Name:** Global Eagle Telecom Licensing Subsidiary LLC

**Call Sign:** E080100

**Authorization Type:** Modification of License

**File Number:** SES-MFS-20190312-00328

**Non Common Carrier**

**Grant date:** 01/22/2020

**Expiration Date:** 08/05/2024

**Nature of Service:** Earth Station Aboard Aircraft

**Nature of Service:** Fixed Satellite Service

**Class of Station:** Other

**A) Site Location(s)**

#	Site ID	Address	Latitude	Longitude	Elevation (Meters)	Special Provisions NAD (Refer to Section H)
1)	1	(0.6m AeroSat Avionics) 1000 UNITS CONUS, +TERR, INTERNATIONAL WATERS				NA
Licensee certifies antenna(s) do not comply with Section 25.209. Please refer to Section E for special conditions placed upon antennas at this site.						
2)	2	(0.62m TECOM) 1000 UNITS CONUS, PR, USVI USTerr Waters				NA
Licensee certifies antenna(s) do not comply with Section 25.209. Please refer to Section E for special conditions placed upon antennas at this site.						
3)	3	(0.63m QEST) 1000 UNITS CONUS, PR, USVI USTerr Waters				NA
Licensee certifies antenna(s) do not comply with Section 25.209. Please refer to Section E for special conditions placed upon antennas at this site.						

*Subject to the provisions of the Communications Act of 1934, The Communications Satellite Act of 1962, subsequent acts and treaties, and all present and future regulations made by this Commission, and further subject to the conditions and requirements set forth in this license, the grantee is authorized to construct, use and operate the radio facilities described below for radio communications for the term beginning August 5, 2009 (3 AM Eastern Standard Time) and ending August 5, 2024 (3 AM Eastern Standard Time) . The required date of completion of construction and commencement of operation is January 22, 2021 (3 AM Eastern Standard Time) . Grantee must file with the Commission a certification upon completion of construction and commencement of operation.*

RADIO STATION AUTHORIZATION**

Name: Global Eagle Telecom Licensing Subsidiary LLC

Call Sign: E080100

Authorization Type: Modification of License

File Number: SES-MFS-20190312-00328

Non Common Carrier

Grant date: 01/22/2020

Expiration Date: 08/05/2024

**B) Particulars of Operations**

The General Provision 1010 applies to all receiving frequency bands.

The General Provision 1900 applies to all transmitting frequency bands.

For the text of these provisions, refer to Section H.

#	Frequency (MHz)	Polarization Code	Emission	Tx/Rx Mode	Max EIRP /Carrier (dBW)	Max EIRP Density /Carrier (dBW/4kHz)	Associated Antenna	Special Provisions (Refer to Section H)	Modulation/ Services
1)	14050.0000-14470.0000	H,V	1M60G7D	Tx	38.60	14.60	1		QPSK OR OCTAL PSK
2)	11700.0000-12200.0000	H,V	36M0G7D	Rx	0.00	0.00	1		QPSK OR OCTAL PSK
3)	14050.0000-14470.0000	H,V	1M02G7D	Tx	41.30	17.20	2		QPSK OR OCTAL PSK
4)	14050.0000-14470.0000	H,V	1M02G7D	Tx	43.80	18.70	2		QPSK OR OCTAL PSK
5)	14050.0000-14470.0000	H,V	1M20G7D	Tx	42.80	18.70	2		QPSK OR OCTAL PSK
6)	14050.0000-14470.0000	H,V	1M60G7D	Tx	36.00	11.90	2		QPSK OR OCTAL PSK

**E) Antenna Facilities**

Site ID	Antenna ID	Units	Diameter (meters)	Manufacturer	Model number	Site Elevation (Meters)	Max Antenna Height (Meters)	Special Provisions (Refer to Section H)
1	1	1000	0.6	AeroSat Avionics	70-100-0000-01		0 AGL	
		Max Gains(s):	28.6 dBi @	14.4700 GHz	31.8 dBi @	11.7000 GHz		
		Maximum total input power at antenna flange (Watts) =			10.00			
		Maximum aggregate output EIRP for all carriers (dBW) =			41.80			
2	2	1000	0.62	TECOM	Ku-Stream			
		Max Gains(s):	28.8 dBi @	14.2500 GHz	31.6 dBi @	11.9500 GHz		
		Maximum total input power at antenna flange (Watts) =			31.60			
		Maximum aggregate output EIRP for all carriers (dBW) =			43.80			
3	3	1000	0.63	QEST	Q050000			
		Max Gains(s):	32.1 dBi @	11.9500 GHz	33.6 dBi @	14.2500 GHz		
		Maximum total input power at antenna flange (Watts) =			25.00			
		Maximum aggregate output EIRP for all carriers (dBW) =			43.80			

**F) Remote Control Point:**

1 One Aerojet Way  
North Las Vegas, Clark, NV 89030

**G) Antenna Structure marking and lighting requirements:**

None unless otherwise specified under Special and General Provisions

**H) Special and General Provisions**

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

- 4 --- Licensee must ensure that a current listing of the name, title, mailing address, email address, and telephone number of the responsible point of contact are on file at the FCC. Any changes must be filed electronically in the International Bureau Filing System (MyIBFS) using the "Pleadings and Comments" link on the MyIBFS homepage within 10 days of the change.
- 8 --- Licensee must notify the Commission when all earth stations operating under this authorization are no longer operational or when they have not been used to provide any service during any 6-month operation.
- 90062 --- Operation pursuant to this authorization outside the United States in the 14.0-14.5 GHz band must be in compliance with the provisions of Annex 1, Part C of Recommendation ITU-R M.1643, with respect to any radio astronomy station performing observations in the 14.47-14.5 GHz band.
- 90075 --- Licensee is afforded 30 days from the date of release of this grant and authorization to decline this authorization as conditioned. Failure to respond within this period will constitute formal acceptance of the authorization as conditioned.
- 90123 --- Operations authorized pursuant to this license are operations by U.S.-registered aircraft anywhere within the coverage area/frequency bands identified in the application for the satellites listed as points of communication. Operations authorized pursuant to this license also include operations by non-U.S.-registered aircraft within U.S. territory, including territorial waters. Authorization for operations by U.S.-registered aircraft outside U.S. territory, pursuant to this license, does not constitute a grant of access to the market in the United States under the Commission's DISCO II policies.
- 90398 --- Changes to previously authorized transmitting facilities, operations and devices regulated by the Commission that may have significant environmental impact, and are not excluded by §1.1306, require the preparation of an Environmental Assessment (EA) by the licensee. (See 47 C.F.R. §§1.1307, 1.1308 and 1.1311)

## H) Special and General Provisions

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

- 90399 --- The licensee shall, at all times, take all necessary measures to ensure that operation of this (these) authorized earth station(s) does not create potential exposure of humans to radiofrequency radiation in excess of the FCC exposure limits defined in 47 CFR §§ 1.1307(b) and 1.1310. Physical measures must be taken to ensure compliance with limits for both occupational/controlled exposure and for general population/uncontrolled exposure, as defined in these rule sections. Compliance can be accomplished in most cases by appropriate restrictions, such as fencing. Requirements for restrictions can be determined by predictions based on calculations, modeling, or by field measurements. The FCC's OET Bulletin 65 (available on-line at [www.fcc.gov/oet/rfsafety](http://www.fcc.gov/oet/rfsafety)) provides information on predicting exposure levels and on methods for ensuring compliance, including the use of warning and alerting signs and protective equipment for workers.
- 90532 --- Operation pursuant to this authorization must be in compliance with the terms of coordination agreements between the relevant space station operators and operators of other Ku-band geostationary space stations within six angular degrees of those space stations. In the event that another GSO fixed-satellite service space station commences operation in the 14.0-14.5 GHz band at a location within six degrees of any of these space stations, ESAs operating pursuant to this authorization must cease transmitting to that space station unless and until such operation has been coordinated with the new space station's operator or the licensee demonstrates that such operation will not cause harmful interference to the new co-frequency space station.
- 90533 --- Operations pursuant to this license must comply with the conditions set forth in the associated space station authorizations for the additional points of communication: Eutelsat 133 WA satellite (E133WA) (Call Sign S3031) (IBFS File No. SAT-PPL-20180302-00018); SES-14 satellite (Call Sign S2974) (IBFS File No. SAT-PPL-20160918-00093).
- 90534 --- Waiver of the Table of Frequency Allocation, Section 2.106 and Footnote NG52 of the Commission's rules, 47 C.F.R. § 2.106, Footnote NG52, to permit ESAA operations with the E133WA satellite in the 11.2-11.45 GHz and 12.5-12.75 GHz frequency bands for ESAA operations, including for terminals in U.S. airspace, is granted on an unprotected basis. Operations in these bands must comply with the conditions set forth in IBFS File Nos. SAT-PPL-20180302-00018 and SAT-PPL-20160918-00093.
- 90535 --- Communications between licensee aircraft earth stations and the relevant space station must be in compliance with all existing and future space station coordination agreements reached between the space station Administration and other Administrations.

**RADIO STATION AUTHORIZATION**

Name: Global Eagle Telecom Licensing Subsidiary LLC

Call Sign: E080100

Authorization Type: Modification of License

File Number: SES-MFS-20190312-00328

Non Common Carrier

Grant date: 01/22/2020

Expiration Date: 08/05/2024

B) This RADIO STATION AUTHORIZATION is granted subject to the additional conditions specified below:

This authorization is issued on the grantee's representation that the statements contained in the application are true and that the undertakings described will be carried out in good faith.

This authorization shall not be construed in any manner as a finding by the Commission on the question of marking or lighting of the antenna system should future conditions require. The grantee expressly agrees to install such marking or lighting as the Commission may require under the provisions of Section 303(q) of the Communications Act. 47 U.S.C. § 303(q).

Neither this authorization nor the right granted by this authorization shall be assigned or otherwise transferred to any person, firm, company or corporation without the written consent of the Commission. This authorization is subject to the right of use or control by the government of the United States conferred by Section 706 of the Communications Act. 47 U.S.C. § 706. Operation of this station is governed by Part 25 of the Commission's Rules. 47 C.F.R. Part 25.

This authorization shall not vest in the licensee any right to operate this station nor any right in the use of the designated frequencies beyond the term of this license, nor in any other manner than authorized herein.

This authorization is issued on the grantee's representation that the station is in compliance with environmental requirements set forth in Section 1.1307 of the Commission's Rules. 47 C.F.R. § 1.1307.

This authorization is issued on the grantee's representation that the station is in compliance with the Federal Aviation Administration (FAA) requirements as set forth in Section 17.4 of the Commission's Rules. 47 C.F.R. § 17.4.

The following condition applies when this authorization permits construction of or modifies the construction permit of a radio station.

This authorization shall be automatically forfeited if the station is not ready for operation by the required date of completion of construction unless an application for modification of authorization to request additional time to complete construction is filed by that date, together with a showing that failure to complete construction by the required date was due to factors not under control of the grantee.

**Licensees are required to pay annual regulatory fees related to this authorization. The requirement to collect annual regulatory fees from regulatees is contained in Public Law 103-66, "The Omnibus Budget Reconciliation Act of 1993." These regulatory fees, which are likely to change each fiscal year, are used to offset costs associated with the Commission's enforcement, public service, international and policy and rulemaking activities. The Commission issues a Report and Order each year, setting the new regulatory fee rates. Receive only earth stations are exempt from payment of regulatory fees.**
