

EXHIBIT B

Concerning the 5850 – 5925 MHz band, Denali is aware of the of the co-primary Federal Government radiolocation in the 5850 – 5925 MHz band in the U.S. and its Possessions. Denali is aware of the potential electromagnetic compatibility issues in the frequency band per NTIA Report Federal Radar Spectrum Requirements, NTIA Report 83-115, Spectrum Resource Assessment in the 5850 – 5925 MHz band and FCC Fifth Notice of Inquiry in Preparation for a World Administrative Conference in 1979 – Docket No. 20271; FCC77-349. Denali agrees to accept this potential for unacceptable interference that may be caused to its communication links by radiolocation systems, including high power land based transportable and shipborne radar transmitters operating in the frequency band in accordance with footnote G2.
