**Re: Request for Extension of Special Temporary Authority
File Nos. 681-DSE-MP/L-95, 258-SSA-MP/L-98**

Dear Ms. Salas:

On December 1, 1998, the Commission granted AMSC Subsidiary Corporation ("AMSC") Special Temporary Authority ("STA") to operate up to one hundred half-duplex mobile earth terminals ("METs") with a transmit bandwidth of 25 kHz. FCC File No. 258-SSA-MP/L-98. AMSC filed a request for a six-month extension of this STA on April 28, 1998, and AMSC now requests that the Commission extend this STA for six months to permit operation of these terminals until April 28, 1999.

Due to the spectrum-efficient design of these mobile terminals, manufactured by Vistar Telecommunications, Inc. ("Vistar") and RandTEC, Inc. ("RandTEC"), the additional testing requested here raises no new technical issues. As previously indicated, all Vistar and RandTEC terminals will transmit over the same single 25 kHz channel band. In addition, these terminals will otherwise operate within the parameters of AMSC's existing authorization. The level of out-of-band and spurious emissions from these terminals conforms to Section 25.202(f) of the Commission's rules and to the Memorandum of Understanding among the FCC, NTIA, and the FAA, thus providing sufficient protection to GPS and GLONASS.

Attached hereto is a check made payable to the Federal Communications Commission for the sum of One Hundred Thirty-five Dollars (\$135.00) to cover the fee associated with this filing. AMSC hereby certifies that no party to this application is subject to a denial of Federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. §853(a).
