Re: Call Sign: E990402  
File No. SES-MOD-20000420-00658

Dear Ms. McClure:

On May 16, 2005, in Order DA 05-1345, we reinstated the above-captioned modification application filed by Globecom Systems, Inc. ("GLOBECOMM") on April 26, 2000 in response to your Petition for Reconsideration filed on July 24, 2002. This modification application is for a fixed satellite service earth station in Hauppauge, New York using the Extended Ku-Band<sup>1</sup> and communicate with the HISPASAT-1C satellite at the 30° W.L. orbit location.

Sections 25.114(c) and (d) of the Commission's rules, 47 C.F.R. §§ 25.114(c), (d), require all space station applicants to submit all applicable items of information listed in its subsections. Section 25.137(b) of the Commission's rules, 47 C.F.R. § 25.137(b), states that applications for earth stations seeking to access a non-U.S.-licensed satellite, such as the HISPASAT-1C, must include the same information as required in Section 25.114 for the foreign space station.<sup>2</sup> We note that your modification application was originally filed prior to the effective dates of these modified rules. However, we have no technical information before us on which to make a determination as to whether HISPASAT-1C can operate compatibly with other satellites authorized to serve the United States. Therefore, in order to continue processing this application, we request the following:

---

<sup>1</sup> 13.754-13.79, 13.794-13.830, 13.834-13.870, and 13.874-13.910 GHz frequency bands.

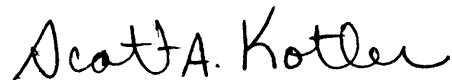

<sup>2</sup> See also Amendment of the Commission's Regulatory Policies to Allow Non-U.S. Licensed Satellites Providing Domestic and International Service in the United States, *Report and Order*, IB Docket No. 96-111, 12 FCC Rcd 24094, 24175 (para. 189) (1997) (*DISCO II*); Amendment of the Commission's Space Station Licensing Rules and Policies, *First Report and Order*, IB Docket No. 02-34, 18 FCC Rcd 10760, 10872-73 (paras. 299-302) (2003) (*First Space Station Licensing Reform Order*).

(1) All the information specified in Section 25.114(d) of the Commission's rules, 47 C.F.R. § 25.114(d), including but not limited to link budgets or a two-degree spacing interference analysis for HISPASAT-1C as required by Sections 25.114(d)(7) and 25.140.

(2) A Schedule S, as required by Section 25.114(a) of the Commission's rules, 47 C.F.R. § 25.114(a).

GLOBECOMM is required to respond to this letter, by amendment to the subject application, not later than June 17, 2005. Failure to do so will cause the Commission to promptly dismiss the application, pursuant Section 25.112(c) of its Rules. See 47 C.F.R. § 25.112(c).

Sincerely,

A handwritten signature in black ink that reads "Scott A. Kotler". The signature is written in a cursive style with a large, stylized 'S' and 'K'.

Scott A. Kotler  
Chief, Systems Analysis Branch
