**Subject:** Application Modification

Jacki, when I was checking applications I have submitted to the FCC, I noticed I had some information which was correct. On my modification to call sign E980162, right at the beginning of section 312B, Site Information, for some reason I had put in information regarding another site in Maryland. I can't remember, maybe I initially copied the application and forgot to change that. Anyway, if you could change or pass this along to someone who might be able to change the site information I would really appreciate it. Actually, the site information for that license will not change from the original filing:
