Dear Ms. Dortch:

We submit this letter on behalf of PetroCom License Corporation ("PetroCom"), which holds multiple satellite earth station authorizations. In a recent review of its records, PetroCom determined that it may not have certified that it completed construction of those earth station facilities. In an abundance of caution, PetroCom provides that certification and confirms that it is operating the facilities as authorized by the licenses for the following earth stations:

	Location	Call sign	Expiration
