Shahnaz:

Thanks for the heads up...

With the following text included in these, I am covered, i.e., "grant them":

QUOTE

H) Special and General Provisions

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

stub

9661 --- "The 17.8 - 20.2 GHz band is shared with U.S. Government space stations and associated earth stations in the Fixed-Satellite Service. The satellite network of which this is a cooperating earth station is subject to coordination under US334 and operation of this earth station will be subject to any technical constraints resulting from this coordination." UNQUOTE

For my information, I will talk to my people on where we are in the coordination process with WB and with ANIK-F2 satellite systems...I will also have to figure out how a foreign operator will coordinate with us under US334.....

Thanks Again,  
Eddie

Eddie: Attached is a .PDF copies of the pending WB Holdings 1 LLC Modification Ka-band earth station applications for your review. I am going to grant these applications COB Monday December 22, 2003, if I don't hear anything from you.

If you have any questions or concerns, please let me know.

Regards,

Shahnaz Ghavami
